Date: 2026/3/12 Version: 3.0

## 電腦畫面顯示

### Computer screen display

原始設定為 100 人組畫面。

如果你的顯示幕尺寸不夠大或團隊人數未達百人不需這麼多欄位，可更經由左上角的 “Option” 按鈕選擇 20、30、40、50、60、100 人數設定。

The default setting is for a group of 100 people.

If your screen size is not large enough or your team size is less than 100 people and you don't need so many slots, you can select 20, 30, 40, 50, 60, or 100 people via the "Option" button in the upper left corner.

1. 程式會自動顯示接收機 Dongle 版本號碼

1. The program will automatically display the receiver's dongle version number.

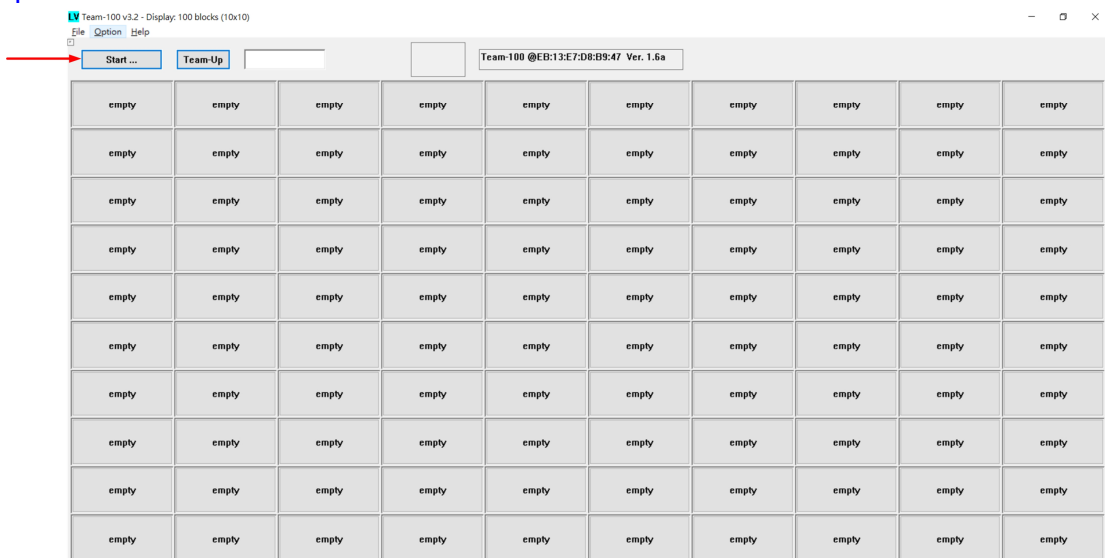

( 插入接收模組即會自動顯示接收模組程式版本 )

The receiver module version will be automatically displayed upon insertion.

2. 按下 ( 選擇 ) 開始按鈕，開始掃描穿戴的胸帶。

2. Press (select) the Start button to begin scanning for the weared chest straps.

3.出現掃描結果 ( 有 ID 顯示為蒐尋到的有效環境內心率裝置使用者 )

3.Scan results are displayed (IDs are shown for valid users of environmental heart rate devices found).

4.選擇配戴心率監測設備的用戶，並將他們鎖定 ( 系統將顯示已鎖定的人數 )。  
按下“組隊”按鈕將他們集中。

4. Select those users who ware the heart rate monitoring devices that you want to lock (the number of people selected to lock will be displayed).

Press the "Team-up" button to group them together.

5.取消已被鎖定使用者，只需重覆點選已被鎖定者的 ID

5.To unblock a user, simply select the locked user's ID again.

6.清除畫面按下 “stop !!!” 並重新開始。

6.Clear the screen, press "stop!!!" and restart.

7.運動課程完畢關閉程式按右上角 “×” 符號。

7.To close the program after the exercise session, click the "×" symbol in the upper right corner.
